Product Information Guide – 5 Segment Rotho 43 Silver Recycling Bin

The segregated colour coded inner bins make control of your waste simple - once an inner bin is full, simply remove and carry to your central disposal centre. The clever Swiss manufacturers have even thought ahead - a sealed green recycle bin makes it easy and odour free to recycle potato peelings and other biological waste. In Europe you are required to recycle batteries - hence the small red disposal recycling bins - ready for when the UK announce the requirement for us! Clean and stylish enough to be on display, the locking pedal action means the lid can be locked open if necessary. Made by the Swiss company Rotho from a patented plastic manufacturing process.
